GERMAN-DESIGN WINDOW SYSTEMS BY REHAU
BROUGHT TO YOU BY BLK LIFESTYLE LIMITED

THE PERFECT WINDOW

TRUSTED BY MILLIONS

Viewscope

Windows are an integral part of every building. More than just an opening to the outside world, a quality window system enhances an architectural facade as well as the interior design. Moreover, a quality window system works to shield the contents of a building, protecting it from external elements.

BLK understands the importance of a robust window system in adding to the aesthetic and functional values of a building. With over 30 years experience in construction, BLKs long standing list of repeat clientele is a testament to its quality in construction and professionalism of service. Our window systems uphold and reaffirm this quality assurance. Each window system is a product of highest quality inputs coupled with uncompromised craftsmanship.

In partnership with the world-leading REHAU brand, BLK capitalises on REHAUs 50 years of global leadership in window systems. From design to installation, REHAUs precision in details and extensive international expertise in producing highly customised window systems add to the many reasons why REHAU is the top choice in window systems around the world.

BLKs philosophy combined with REHAUs ideology distinguish Viewscope from other window systems. So make the smart choice, select Viewscope windows and doors.

Inward Opening Windows

Sliding Windows

4-panel single slider double slider 3-panel

Every REHAU profile is strictly produced according to German engineering guidelines and are certified to ISO 9001 standards.

Selection of the right window system can alter your perception about the building, the space within and the space beyond. B.L. Kashyap & Sons (BLK), one of the most powerful forces in the Indian construction industry, understands the need to make the right choice in window systems.

At BLK, quality is at the forefront of all business decisions to ensure customer satisfaction. This consistent effort in all areas of growth underlies its partnership with REHAU, the global innovator in polymer solutions.

Together with REHAU, BLK brings to you Viewscape uPVC windows that offer unmatched quality and performance.

FIT AND FORGET

GERMAN-DESIGN WINDOW SYSTEMS

Windows are a major factor in the success of a building project. Choose wisely and your home will be comfortable, quiet, attractive and easy to maintain.

The benefits of Viewscape windows and doors made from REHAU profiles are more than just good looks. Get clued in on what to look out for, to have peace of mind and a beautiful home.

Dust- and water-proofing

Trivial aspects such as the sealing are thoughtfully designed to achieve excellent air and water tightness in order to keep dust and rain water out of your home so your time is spent on more important things.

Sound insulation

Quality windows coupled with quality installation ensure sound insulation of the windows and doors. With Viewscape window systems and suitable glazing, sound insulation up to 40 dB is achievable.

Rust-proofing

Our uPVC profile is rust-proof and resistant to atmospheric pollution including a range of acids and alkalis.

Colourfastness

Our uPVC's special formulation for external use gives excellent resistance to weathering and ageing. Many REHAU installations worldwide have been in use for over 25 years without signs of deterioration.

High wind load

Our window profiles come with multi-chamber designed for optimal reinforcement. Together with a wide range of supplementary profiles, Viewscape windows are suitable for high wind load application and for high-rise buildings.

Heat insulation

REHAU's uPVC, used in our window systems, is an inherently stable material with poor heat conductivity properties. Our window system is specially formulated to suit extreme climates and can even be installed in regions experiencing up to 180kcal/cm² per year radiation level.

Enhanced security

Windows don't just let light in; they can also make you vulnerable to intruders. Have security for your family and property in mind when choosing windows. Viewscape windows come with security measures built in. Positioned through the centre of the sash profile, the Eurogroove is designed to provide a strong positioning for multi-locking hardware and greater resistance to forced entry.

Ease of maintenance

Viewscape windows are made of highly durable uPVC, so they are extremely resistant to pollution, diluted acids and alkalis. They require no maintenance and can be cleaned with appropriate standard household cleaners.

THE NEW GENERATION WINDOW

DESIGNED FOR ASIA PACIFIC CLIMATE

An innovation for every home, Viewscape windows offer unrivalled form and function.

Adding to the clean-line design is the smooth gloss finish that offers years of lasting appeal.

Features and benefits

**Viewscape
sliding system**

**Viewscape
casement system**

1. Internal drainage performance	Good	Excellent
2. Easy glazing with the REHAU single-leg glazing bead design; internal glazing provides increased security	4 to 21mm thickness	4 to 33mm thickness
3. Smooth and light operation of the sashes	Using load-bearing rollers and solid aluminium rail design	Using REHAU qualified hardware
4. Large profile chamber with a galvanized steel reinforcement allows large elements to be produced	Good	Excellent
5. Thermal insulation properties save heating and cooling costs	Good	Excellent
6. Acoustic performance	Good	Excellent
7. Multi-point locking fittings to meet the highest security demands	Good <i>Multi-locking on one side</i>	Excellent <i>Multi-locking possible on all sides</i>
8. Special door profiles providing durability and rigidity available	Good	Excellent
9. Dual sealing for barrier against air and sound infiltration as well as water penetration	Good <i>Siliconised brush seal with centre-film</i>	Excellent <i>EPDM seals</i>
10. Flyscreen option (or also known as insect screen)	Sliding flyscreen possible through special design frame	Fixed flyscreen fitted onto frame
11. Wind resistant performance	Good <i>Tested to 3.3 kPa</i>	Excellent <i>Tested to 6.3 kPa</i>

QUALITY LIVING

LIFE THE WAY IT SHOULD BE

Window Maintenance tips

Smooth Operation: To ensure longevity, moving parts are recommended to be periodically lubricated. Only a trained window installer has the skill to make the necessary adjustment.

Ventilation: Viewscape window systems are designed to close at optimal tightness and save energy. So your new windows will be considerably better sealed and if they are double glazed will, under normal circumstances, prevent condensation.

However, where humidity levels are high, condensation may occur on cold surface in the room. This can easily be counteracted with correct ventilation. Windows should be opened on a daily basis

frequently enough to allow moist air out and fresh air in. If you have tilt-and-turn windows, a room can be ventilated by leaving the windows in tilt position for a few minutes.

Cleaning: Slightly dirty frames can be cleaned with warm **water and** household washing detergent. Extremely dirty frames should be cleaned with our special cleaning fluid.

Abrasive cleaners as well as dry cleaning with a duster should be avoided. Cleaning solutions and polishes that contain solvent or thinner should not be used. Aggressive chemicals like these will attack the window frame and seals.

BLK LIFESTYLE LIMITED is a fully owned subsidiary of B.L.Kashyap & Sons Limited. BLK, as it is popularly known, is one of India's most respected construction and urban infrastructure company. Its service portfolio extends across construction of factories, manufacturing facilities, IT campuses, commercial and residential complexes, malls and hotels. BLKs huge success stems from a perfect synchronisation of man and machine, working together to create masterpieces of infrastructure.

BLK has a proud heritage of working with the best Indian and multinational companies like GlaxoSmithKline, Fortis, Escorts, Motorola, Maruti, Hindustan Times, The Taj Group of Hotels, Oberoi Hotels, Embassy, Mantri and Brigade. Today, BLKs positioning as the "one-stop shop" for providing solutions for all construction needs adds to its eminence.

Consistent with the adopted pattern of synergies in growth, the subsidiary, BLK Lifestyle provides complete interior solutions. Its expertise lies in providing corporate fit-out services and manufacture and sale of related interior products. The anatomy of a building is just open space; it is the interiors that define its ambience and characteristic. Thus, at BLK Lifestyle, the success of a project is measured by its ability to envision the individual needs of the clients, to transform their dream spaces to magical realities; realities that are a true representation of the company or the individual, as the case maybe.
